

THE NEW LOW EMISSION FORESTER DIESEL.

IT'LL LEAVE THE COMPETITION FUMING.

With Subaru's new 2.0 litre Boxer Diesel engine, the fully loaded Forester has class leading emissions and fuel economy that leaves all other SUV's behind. It might upset them. But at least they'll have cleaner air to breathe. The Forester Diesel starts from as little as £20,868 and you won't find lower insurance costs for any SUV.
